ROUND LAKE CHARTER PTO SCHOLARSHIP:

- EVAN NICHOLS- MDHS

SUSAN WEINSTOCK MEMORIAL SCHOLARSHIP:

- MONIQUE GOUDREAU- MDHS

WILLIAM SIEVERT SCHOLARSHIP:

- DEAN ROONEY- LHS

FIRST ROBOTICS TEAM 1557

12 Volt Bolt is a robotics program that provides STEM education to students in the Lake County area. We boast team number 1557 under an organization called FIRST (For Inspiration and Recognition of Science and Technology) which has approximately 3600 active high school teams from 27 countries. These teams participate in regional, district and world robotics competitions each year. 12 Volt Bolt is a community-based team which allows us the freedom to meet year-round and to welcome public, private and home-schooled students from all over Lake County. As a non-profit organization, we rely heavily on the kindness of others and the generous support of local businesses, private donors and education-related grants. Team 1557 - 12 Volt Bolt has been able to make an impact on the Lake County community since 2004.

Mission Statement

The goal of 12 Volt Bolt is to promote science, technology and engineering throughout North Lake County. Using robots as a hands-on platform, we seek to capture the attention of students in grades 6 through 12 and engage them in conceptualizing, designing, constructing and programming robots. We use teamwork, critical thinking and problem solving as we work toward several robotics competitions throughout the year. It is our hope to provide area youth with a long-lasting appreciation for innovation while also giving them an opportunity to develop life, career, and leadership skills.

"Our immediate need is for a new clubhouse location. We are looking for at least 1500 sq. feet of air conditioned work space that we can use 2-3 times a week throughout the year."

Please contact Kevin Brunner
407-430-5020 with any information!
